Display the task cards (PowerPoint file)
on a tablet or display to the entire
class on the classroom computer.

Using the task cards, students will color the digraph images to find their way through the maze.

You can choose to use a MONSTER version...

- Monster slides pop up throughout the game and students will write the letters they see in the circles at the bottom of the page.
- *The teacher will add the letters to the editable slides. The letters will spell a SECRET answer.

OR a NO PREP, no MONSTER version too!

*Just delete any slides related to the MONSTER from the POWERPOINT file. If you want to use the monster version later, you can always RE-DOWNLOAD the file from TpT.
