Positive Behavior TOOL

TALLY UP TASKS

— Classroom Management —

Classroom Posters (colored or b/w) Job Options
— Are Classroom To Hang Classroom
Job Poster(s) — Tally Up Header (color or b/w) — Labels — velcro

prep: Decide what classroom jobs you want to assign students and needed using the editable files. Print, label, and laminate the posters, jobs, and jobs. Attach to the Classroom Jobs poster(s) and hang in your classroom. The Classroom Jobs Poster can be made longer by the additional pages I have added if you want more jobs. Attach the Tally Up Header/label somewhere in the classroom where you can leave tallies up.

how to: Introduce the classroom jobs to students. After explaining each job and assigning jobs, introduce the Tally Up Header/Poster. Tell students that by doing their individual classroom jobs, they will be working together to build a successful classroom. In addition, students will be on the lookout for others who do their classroom jobs REALLY WELL. Did Mark collect all the homework at the right time without any reminders? Did Lisa spill a little water while watering the plants, BUT remembered to wipe up all the water before going back to her seat? Tell students that at the end of the day, you will ask if there are any "tallies" that need to be added to the Tally Up poster/area. Students CANNOT talk about themselves BUT students can talk about how they noticed someone else doing exceptional work when completing their classroom job. Decide (with student input) on a number of tallies that the class wants to earn as a goal. Once students attain their goal, decide how you will celebrate!)
