Make books for 10 of your students all at once, print what you need, and then **SAVE** the file so you can use it any time! Re-download the file from TpT and create a **NEW** set for the **rest** of your students. Be sure to **SAVE** this file too! Need to change something, just delete and retype! You can create an endless amount of resources!

****This pack is full of fun activities to help students practice and MASTER their first, last, and full name!**

I have designed this pack so that you are able to make 10 student packets at a time but feel free to print these pages as needed too! You could also have students keep their name pages in a folder if you choose not to make a booklet. I have included a printing guide to help with this. :)

TIP: After you personalize a pack for 10 of your students, save it to your desktop. Re-download the file from your PURCHASES on TpT and personalize another pack for your next 10 students. Save this pack to your desktop too. You'll be able to access these personalized packs anytime without having to re-personalize them!
