TIPS

-Print a MASTER COPY and create a booklet based on the skills you want to observe or test first. Save the rest of the pages to create another booklet later or use the additional pages individually.

-Decide which pages you want to have students complete as a whole group, individually, or in small group. I usually have my students complete the pages I would like to know more information about during our small group time. For example: the Problem Solving page, Reading and Comprehending page, Vowel Sounds, etc.

THE FOLLOWING PAGES ARE TESTING PAGES and CANNOT BE COMPLETED BY STUDENTS WITHOUT TEACHER INSTRUCTION: 28, 29, 49, & 52.

This means you will give students a verbal cue (letter name or sound) and students will color the letter matching that letter name or letter sound certain colors. I always complete these pages as a small group. Use the **ANSWER KEYS** to conduct these tests. For example, when completing the letter sound test on page 49, use the answer key on page 54 start with one color at a time by saying, "Grab a yellow crayon/marker. Color the letter that makes the /b/ sound. Color the letter that makes the /s/ sound..."

*Assess the sight word page (52) individually by asking the student to read each word
