You can choose to use a MONSTER version...

- Monster slides pop up throughout the game and students will write the letters they see in the circles at the bottom of the page.
- *The teacher will add the letters to the editable slides. The letters will spell a SECRET answer.

OR a NO PREP, no MONSTER version too!

*Just delete any slides related to the MONSTER from the POWERPOINT file. If you want to use the monster version later, you can always RE-DOWNLOAD the file from TpT.
