

Language Arts Activities

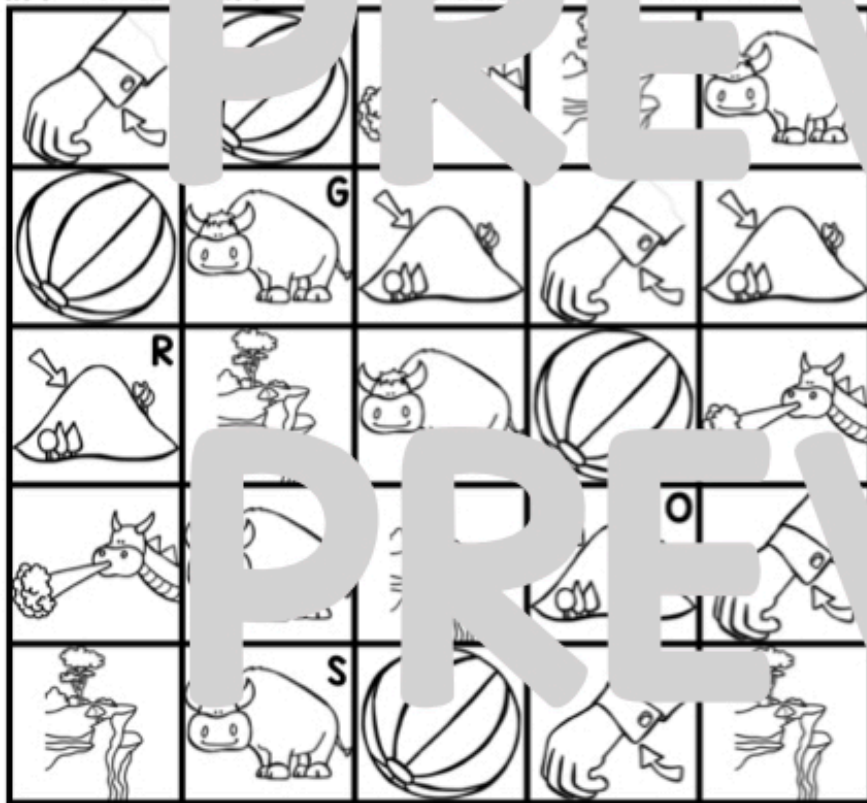

HIBERNATING UNDER THE WATER -DOUBLE CONSONANTS-

Name: _____

Using the code below, color each picture accordingly.

After coloring, answer the questions at the bottom of the page.

bull - BLUE
 cliff - PURPLE
 G
 R
 O
 S

UNSCRAMBLE the letters in the BLUE colored boxes to spell an animal that hibernates under the water.

HIBERNATING CONTRACTIONS

Read each sentence and draw a small picture of what is says. In the two rectangles, write the two words that create the contraction.

Humans don't hibernate, but some animals do. Humans and some animals hibernate.

During hibernation, an animal's heart rate doesn't speed up, it slows down to less than 10 beats per minute.

Animals who hibernate can't stop eating before they wake up. They eat a lot more than normal before they hibernate.

Hibernating animals have special ways to survive while hibernating. If the temperature drops too low they won't sleep anymore and will wake up to protect themselves from freezing.

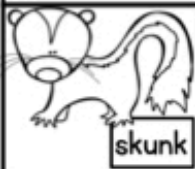

Math Activities

Hibernating Costs A Lot!

Name: _____

Frida was buying all the stuffed animals at a garage sale that hibernate. How much money did each stuffed animal cost? Write the amount in the box next to each animal.

BONUS: Color each coin to match the animal it costs.

Which stuffed animal cost 16¢?

This animal does not hibernate continuously! They wake up for a few days at a time all throughout the winter.

MAT1.2.MD.C.8

IT'S TIME TO HIBERNATE

Digital & Analog Sort Cut & paste the correct digital clock below the analog clock.

After you write all the digital times, write the letter O in the top corners from left to right and the letter R in the bottom corners from right to left. Use a ruler to space the letters evenly on the blank.

Black bears and brown bears hibernate, but beavers do not hibernate.

MAT1.2.MD.C.7

6:30^O 1:30^L 10:30 12:30^A

7:30 4:30^R 8:30^P 5:30

Writing

Reading Response

I can **WRITE** about an animal that **HIBERNATES**.

Read the paragraph below and then write about what you learned on the lines below.

Not every kind of squirrel hibernates. Tree squirrels do NOT hibernate but ground squirrels DO hibernate! Most ground squirrels hibernate for 6 months. They go into a deep sleep and their heartbeats slow down to about one every two minutes. If you were to dig elaborate underground tunnels for a squirrel to use as a bathroom. Before they go to sleep, they clean up their bathroom. Before they go to sleep, they clean up their bathroom. Before they go to sleep, they clean up their bathroom.

Blank writing lines for the student to write their response.

What do they do to PREPARE for WINTER?

humans

hibernating animals

PREVIEW

When the weather gets colder, pests seek shelter from the cold! Seal cracks and holes on the outside of your house so that rodents and pets don't get in.

When the weather gets colder, the water in your pipes can freeze! Stop your pipes from bursting by draining them in the fall and wrap them in insulation.

For an extra layer of protection, use heavy blankets and coats. Use windbreakers and windproof clothing. Use hats, gloves, and mittens. Use heavy boots and warm socks. Use heavy winter coats and heavy winter hats.

Eat extra food rich in fat and protein. Eat lots of energy bars and nuts. Eat extra food rich in fat and protein. Eat lots of energy bars and nuts.

Find a safe place away from predators so that you are protected while you are sleeping.

Gather extra food and store it in a safe place in case you wake up and need some food during the winter.

Make sure your shelter is safe from predators so that the new babies that might be born in the spring are protected.
